World's Grain Exhibition and Conference

**Farmers Will Win
\$210,750.00 in Prizes**

The World's Grain Exhibition and Conference offers Canadian farmers an opportunity to share in cash prizes amounting to \$210,750.00. Comprised in 50 competitive classes, open to the whole world, are 1,701 cash prizes. A few of the major awards follow:

- \$2,500 a first prize for 50 pounds of wheat; 30 pounds of oats.
- \$1,500 for 40 pounds of barley; 50 pounds of rye.
- \$ 800 for 15 ears of corn.
- \$ 300 for 30 pounds of peas; 30 pounds of flax; 20 pounds of clover.

With this splendid opportunity before them, Canadian farmers should keep a watchful eye on their growing crops. They should mark for special care those areas that appear most promising. It should be understood that all seed and grain samples, if they are not already selected, will have to be 12x1 in cross of this year. All exhibits must be received by the Exhibition authorities on or before March 1, 1932.

Of vital importance to the advancement of Canadian agriculture will be the winning of World Championships in 1932 by farmers of Canada. Their seed and grain exhibits must demonstrate to the world the quality of Canada's field crops.

Select the classes from the prize list, most suited to the crop you grow, then select your samples from the best you have. It is best to make your entry NOW.

Your sample for exhibit must be in the hands of the Secretary at Regina on or before March 1, 1932.

Valuable information relating to the preparation of grain and seed for exhibit may be secured by writing to the Secretary of the Provincial Committee, World's Grain Exhibition and Conference, care Department of Agriculture, your own province.

Show what you grow and share what you know

On application, the Secretary, World's Grain Exhibition and Conference, Incubated Bank Chambers, Regina, will send you prize lists, rules and regulations governing competitive, contact and other information.

Bernard Miller Buried.

The funeral took place on Friday last, June 26th, of Bernard Miller, an old-time resident of Blueberry district. Deceased was in his 51st year and had been suffering from a chronic ailment. He was born in the year, 1880, in the district of Stryia, Galicia, Austria, and came to Canada in 1906.

The services were conducted by Rev H. Kuring, pastor of the Blueberry Lutheran church (Missouri Synod), and interment took place in the churchyard.

He is survived by his wife; one son, Henry; eight daughters, Elizabeth, Maggie, Barbara, Emma, Theresia, Ida, Mrs Pete Getsinger, and Mrs M. Enders; and one sister, Mrs Enders, Chicago.

Basketballers Go to Leduc

A team of basketball players from Stony Plain played at the big Sportsfest in Leduc yesterday; competing with teams from Buford, Calmar, Leduc, and made a good showing. The team was given a splendid reception by the board of trade, which had the celebration in charge. The basketball tournament included teams from Fredericksheim, Leduc, Calmar, Thorsby, and the Stony boys met some old friends from across the river.

Lutheran Synod.

The convention of the Missouri Lutheran Synod, with delegates from all parts of this province and British Columbia, opened its sessions yesterday in St. Matthew chapel, Stony Plain. Papers are being read by the delegates to the convention, and discussions thereon are in order. Representatives are here from a number of congregations in the two provinces. Rev Dr Fritz, Dean of the Concordia Seminary in St. Louis, is present.

United Church Notes.

The garden party held on Friday last at the home of Mrs Clarence Lory was an unqualified success. About \$25 was realised for the Ladies' Aid fund.

A very successful picnic was held by Spruce Grove church and Sunday school at Edmonton Beach, Saturday last.

Upon closing the Sunday school for June and July, Mrs Kowensky and Mrs Umbach were each presented with a very handsome copy of the New Hymnary.

On Sunday last the Pastor spoke on the contact between Faith and Cineism. A memorial hymn was sung in honor of Mr Clarke, a former worker in our church.

On Sunday, August 2nd, Rev G. A. Sauder will exchange with Rev Langille, of Calder church.

Nationalism vs. Internationalism

This old world is in a state of confusion worse confounded. Everywhere acute problems of one kind or another demand solutions. And almost everybody has some pet theory or plan to advance as a sure cure-all, but upon analysis they are found to be impractical and more likely than not to create greater problems and difficulties rather than solve existing ones. People's thinking appears to be muddled.

Like hundreds of others, the writer of this column has for months past been reading reports of debates in various parliaments, speeches and interviews by public men, by economists, by financiers, by transportation executives, resolutions by the hundreds passed by political conventions, farmers' meetings, manufacturers' bodies, church assemblies, and what not. He has read voluminous articles on Russia's "Five-Year Plan," on banking and currency, on trade and tariffs, on unemployment and unemployment insurance, over-production and under-consumption, war debts and war reparations.

And with what result? Just this, and it is passed on to the readers of this column for what it is worth. The conclusion reached is that the world is at war today just as truly as it was during the years 1914-1918, and that all people are suffering because of this warfare just as they suffered in the years mentioned. The war of today is not between opposing armies and navies, but between two sharply antagonistic ideas—an acute nationalism on the one hand and a reaching-bout for an acceptance of the true concept of internationalism on the other hand.

Following the Great War, the statesmen of the world attempted to promote and make realities of two great ideals,—one, the right of self-determination by races and small nations; two, the creation of a League of Nations. Both of these ideals are good, but either carried to an extreme is destructive of the other.

In order to provide for the first, self-determination, numerous small nations were brought into being in Europe. They immediately set to work to fan the flame of nationalism as essential to their continued existence and development, and the fanning of such flames was comparatively easy following four war years of nationalistic appeals to people in all lands. The inevitable result was the setting up of barriers of various kinds along all frontier lines, all with the idea of building up a nation apart from other nations.

Coupled with this development was the effort made in the opposite direction,—the creation of a League of Nations to draw all nations closer together, to preach the doctrine and drive home the lesson taught by the Great War that no nation can live unto itself alone, that internationalism rather than isolation and antagonism is essential to the wellbeing of the human family.

Unfortunately, the appeal to a narrow nationalism found a readier response. The masses of the people understood such an appeal. They had been fed on it for countless centuries and as a result were haunted with prejudices and passions not easily dispated. Selfish interested parties and individuals utilized this nationalistic appeal to their own advantage. The result,—a world presently given over to the most insane forms of nationalism. World trade, the exchange of commodities between nations, is curtailed and restricted by tariff walls higher than ever before known; restrictive laws are rigidly enforced prohibiting the people of one country to enter another, with the result that the unpopulated areas of the world remain unpopulated and unproductive while teeming millions are coupled up in restricted areas with no outlet; producers in one country cannot find customers for their surplus products, while consumers in other countries lack even the essentials of bare existence.

Faced with such a condition,—a condition everywhere recognized,—the nations of the world instead of getting together and mutually agreeing in the interests of all to abandon this extreme nationalism, remove their restrictions and destroy their barriers, and thus allow natural laws to freely operate, are actuated by fear that some one nation may thereby gain an advantage over the other nation. So all continue to suffer, and the situation grows worse because in the ensuing struggle every new restrictive act by one country is met by a counter restrictive act by other countries.

So long as such a condition prevails, it is idle to talk of reduction in armaments, because physical warfare is the ultimate outcome of economic warfare and the continuing clash of nationalistic aspirations. In the development of a true internationalism lies the hope of the world.

Saskatchewan Honey

1930 Production Largest In History Of Province

The production of honey in the Province of Saskatchewan, in 1930, was 685,561 pounds, and its value \$106,257—the largest output in the history of the province and exceeding that of 1929 by 280,649 pounds and that of 1928 by 263,249 pounds. The honey production for the whole Dominion in 1930 was 3,166,683, so that Saskatchewan's quota was a little over two per cent. Manitoba produced 10,110,128 pounds and Alberta 1,578,948 pounds.

Gets Seven Months' Leave Of Absence

Oklahoma Convict Let Out To Harvest Neighbors' Crops

Jim Crowell has been given seven months' "leave of absence" from the Oklahoma State Prison because he owns the only threshing machine in his part of the State. Crowell's neighbors petitioned Acting Governor Robert Burns to grant the leave because, they said, they had to have him to harvest their crops. The prisoner was serving a twelve-year sentence for manslaughter.

Suffered Severe, Painful Cramps In Her Stomach

Those terrible cramps in the stomach that double you up in pain and make you break out in a perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 204 Argyle St., Halifax, N.S., writes:—"I have suffered greatly from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

U.S. Land, Sea and Air Forces

Figures Showing Strength Submitted To League By United States

Acting to encourage world-wide preparations for the League of Nations general disarmament conference the United States government has submitted to the league after setting forth in detail the total land, sea and air forces of the United States.

The league has requested similar information from the other powers which will participate.

The United States total land effectives as given in the data, are 188,957, including 13,080 officers, as compared with a legal strength for the army under the national defense act of 1923 of 17,728 officers, 640 warrant officers and 280,000 enlisted men.

The total naval force strength was placed at 109,886, including 10,420 officers of the navy, 3,000 officers and 17,600 men of the marine corps. The marines were listed as of "average strength."

Recipes For This Week

(By Betty Barclay)

LEMON MERINGUE PIE (Makes 1 pie)

- 1 cup sugar.
- 3 tablespoons flour.
- 3 tablespoons cornstarch.
- 1 teaspoon salt.
- 1½ cups boiling water.

Sift dry ingredients, add water, and cook in double boiler until thick (about 15 minutes). Add:

- ½ cup lemon juice.
 - Grated rind 1 lemon.
 - 2 egg yolks, beaten slightly.
- Cook 2 minutes longer. Cool and turn into a baked pie shell. Cover with meringue made of:

- 2 egg whites.
- ¼ cup sugar.
- ¼ teaspoon baking powder.

Beat egg whites until frothy, add sugar and baking powder and continue beating until stiff. Put in moderate oven (325 degrees Fahrenheit) for 15 minutes to brown.

LISBON EGGS

This combination of soup and eggs makes a dish hearty enough for the main course at luncheon or supper, or may be used as a beginning for an otherwise rather light dinner.

- 2 cups soup stock.
- 1 onion.
- 1 tablespoon vinegar.
- 1 tablespoon sugar.
- 2 tablespoons bacon drippings.
- Eggs.
- Toast.

Fry the sliced onion in the bacon fat. Add the soup stock, vinegar, and sugar. Cook all together until the onion is soft. Have ready one slice of toast for each person to be served. Poach an egg in the boiling soup for each person. Arrange the toast in soup plates. Place a poached egg on slice. Fill the plates with the soup.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguards and beautifies the most delicately-textured skin. Creates complexions of exquisite charm. Adds a subtle finish to the daintiest woman. Invaluable for softening the hands and making them beautifully white. Cool and refreshing. Daintily fragrant. Delightful to use. Confers unhesitatingly by all women who care for feminine distinction.

Compulsory Idle Insurance

Stating that the United States might well take a leaf out of Russia's book in planning for the future, G. Hall Roosevelt, nephew of the late President Theodore Roosevelt and city controller of Detroit, advocated a system of compulsory unemployment insurance in an address before the International Association of Comptrollers and Accounting Officers here recently.

Keep Douglas' Egyptian Liniment handy. A sure, speedy remedy for burns, sprains, felons, blood poisoning, soft corns, warts, scald feet. Invaluable for inflammation and muscular rheumatism.

Chinese Returns Home

A large party of Chinese, accompanied by their wives and families, arrived in Vancouver recently over the Canadian National Railway. Members of this party came from the British West Indies and South America and were en route to China.

W. N. U. 1996

British Plane Will

Carry Robot Pilot

When Flies Try For Non-Stop Record To Cape Town

Squadron Leader O. R. Gayford and Flight Lieutenant D. L. G. Bett have been chosen to attempt a world's long-distance record in a new giant monoplane on a non-stop flight to Cape Town or Ceylon.

A Fairey-Napier monoplane being built for the attempt will be ready about the end of July and will be tried out in August, although the aircraft on the record of 5,685 miles now held by the French airman, Dieudonne Coste and Maurice Bellonte, will not be made until late autumn.

The destination will be determined by weather conditions, although the Ceylon route is regarded as more favorable for the attempt.

The machine will be almost identical with the Fairey-Napier long-range monoplane used for the last attempt, in 1929. Only a thousand gallons of fuel will be carried. There will also be a robot pilot in order that the two pilots may be relieved of considerable routine during the flight. The automatic airman will be able to take safe and complete control once the course is set.

Squadron Leader Gayford was a World War pilot and later served in Egypt and India. He also participated in the annual R. A. F. flight between Khartoum and Cape Town in 1928. Flight Lieutenant Bett participated in the annual R. A. F. flight through Africa in 1927.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply you.

Platinum Wire

Can Be Drawn So Thin That 25,000 Miles Of This Wire Would Weigh Only 35 ounces

A platinum wire long enough to girdle the globe at the equator can be drawn as thin as the previous figure is 289 wedding rings, according to Cecil S. Sivil, of the research department of Baker and Co., refiners of precious metals. The process whereby this can be accomplished has been described in a paper which he presented before the American Institute of Mining and Metallurgical Engineers.

The extraordinary ductility of properly melted platinum is demonstrated, Mr. Sivil said, by the fact that it can be drawn into wire as fine as 500 millionths of an inch in diameter. Twenty-five thousand miles of this wire would weigh only 35 ounces.

Acid Stomach

Completely Relieved by Famous Vegetable Pills

Mr. Frank C. of Blackburn, writes: "I have suffered long from acid stomach and constipation, but since being advised to try your wonderful Carter's Little Liver Pills I can eat anything." Dr. Carter's Little Liver Pills are no ordinary laxative. They are ALL-VEGETABLE and have a definite, valuable action upon the liver. They end Constipation, Indigestion, Bilelessness, Headaches, Poor Complexion. All druggists. 25c & 75c red pkg.

Co-Operation Best Way Of Doing Business

Views Of British Trade Delegation Corroborated By London Times

"It is clear the best way of doing business with Canada is by co-operating with existing Canadian interests and by pushing especially those lines of goods which are complementary to rather than competitive to Canadian products," declared the London Times in an editorial on Anglo-Canadian trade.

"The Canadian manufacturer can only produce economically goods for which there is sufficient demand in the Dominion, but he is endeavouring to prepare for an increasing population and greater prosperity by extending the range of his production. The British manufacturer can assist him in this and may expect in return his assistance in marketing in Canada British goods which are complementary to products of Canadian industry."

The editorial was along the same lines as the main recommendations of the trade mission which recently visited Canada on behalf of the Federation of British Industries, and urged that the only proper policy for the British manufacturer was co-operation and not competition with existing Canadian industries; to mutual advantage.

A Prime Dressing For Wounds. — In some factories and workshops carbolic acid is kept for use in cauterizing wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and does not scar the skin or burn the flesh.

Manitoba Beryllium Deposits. — The Industrial Development Board of Manitoba, announces that it is at present in touch with about thirty United States firms in regard to the development of the beryllium deposits in Northern Manitoba.

Consolidation Of Debts Is Suggested As Solution Of Economic Problem In West

Only by reorganization and consolidation of debts will it be possible to remove the menace of fear and discouragement that oppresses the western farmers, merchants and other business interests, said Prof. W. W. Swanson, head of the economics department, University of Saskatchewan, and adviser to Premier R. B. Bennett, when he remarked now was the time to deal with the critical situation which had developed from crop conditions, frozen credits, low prices for farm products, by attacking the debt and credit problem on a comprehensive scale.

Dr. Swanson, who is in communication with the prairie premiers and Premier Bennett, said that the three most urgent problems seeking solution in the west were debt adjustment, unemployment, and provision for marketing the coming crop. He outlined a plan for dealing with these questions.

He considered that the debts should be divided into two categories of fixed and floating obligations. The fixed debts, which included mortgages, should be automatically extended without cost to the farmer for a period of three years, during which time steps could be taken to develop a plan for a more permanent settlement.

The second group of debts, oil, gas, accounts at country stores, bank loans and so forth, Dr. Swanson estimated amounted to \$250,000,000 and upward for the 250,000 farmers in the three prairie provinces.

He considered that these should be consolidated and paid by bonds with a substantial reduction in the interest rate. The federal government to pay one-third, the provincial government one-third, and the farmers the balance.

These bonds would have a life of three years, during which time all legal processes against farmers entering the scheme would be prevented.

Pheasants For Manitoba

Efforts Made To Increase Game Resources Of The Province

The Provincial Government is co-operating with the Manitoba Game Protective League in introducing ringneck and Mongolian pheasants into Manitoba. A shipment of 300 eggs is now en route from the Pacific coast and will be distributed to experimental farms within the province. Experiments will be carried on with the two varieties to discover which is better suited to Manitoba climatic conditions.

Last year the Game Protective League distributed 4,000 eggs in small lots among individual farmers and it is estimated that 2,000 birds were hatched from these settings. Efforts to increase the game resources of Manitoba are designed both for the benefit of the resident and of the professional sportsman.

Worked Up Good Business

Out of a job, a young New Yorker got an idea there was money to be made rehabilitating neckties, as Joseph Van Raalte tells the story. He started out by cleaning and pressing ties at 12 for 11. Trade has become so brisk that he has invested in a delivery car, on the side of which are painted the words "Necktie Ambulance." A big city offers no end of ways of making a living for the man or woman with ingenuity.

"Excuse me, are you the dentist?"
"Yes. What do you want?"
"I just want to know the time!"
Karikaturen, Oslo.

W. N. U. 1496

Manitoba Live Stock Plan

Looking With Interest To Development Of Large Market In British Isles

Representative Manitoba live stock men unanimously favoured entry into a Canada-wide undertaking to establish a permanent plan for export marketing of live stock and live stock products. The plan involves direct overseas sales to a powerful English co-operative society. The proposal is to be placed before provincial bodies in Manitoba, Saskatchewan, Alberta, Ontario, Quebec and the Maritime Provinces.

It is intimated that the English society is willing to make the Canadian organization its sole representative in Canada if the Canadian body is prepared to make the English co-ordination its sole representative overseas. Farmers of Manitoba and Western Canada are looking with interest to the possibilities of the development of a large live stock market in the British Isles. Recent shipments to that market seem to justify expectations of continued development.

New Agricultural Colony

Group Of Ohio Farmers Settle In British Columbia

Shell Lake, northwest of Prince George, has been selected by a group of Ohio farmers as the site of British Columbia's newest agricultural colony.

They have acquired most of the land around the lake and 15 settlers have arrived there to build homes for themselves during the present summer. More will come later. A large community house has been built on the lake shore to accommodate the new arrivals while they are building houses, and the equipment of the colony includes a portable saw-mill for making lumber and an electric light plant. The colonists are developing their settlement without assistance from the government. They come from Youngstown, Ohio.

Minerals By Airplane

Radium Ore To Be Transported By Plane From Great Bear Lake

The transportation of mineral products by airplane may seem fantastic, but will actually be adopted in Northern Alberta. The fact that the mineral happens to be radium explains its suitability for air transportation. Plans call for an airplane trip to Great Bear Lake during the present month returning with the first shipment of radium ore, of which it is expected that area will become an important producer.

In a test of the keeping qualities of flowers, those that lasted longest were roses, orchids, lilies, carnations, chrysanthemums, spring flowers, and calendulas.

DON'S ENGLISH OUTFIT

Don Jalma, second son of King Alfonso of Spain, seems to be fully resigned to his exile. He is seen above strolling through The Strand, London, England, dressed in unconventional English suit of navy blue with grey flannels.

Canada Can Compete

Able To Hold Own With Russian Growers Or Those Of Any Other Country

Canadian wheat growers will be able to compete with Russian growers or those of any other country. In the opinion of a prominent official of the Canadian Wheat Pool, Europe will continue for generations to be a large importer of wheat and Canada has the greatest net comparative advantages of any country in being the source of supply, according to this official, who has recently made a personal study of conditions in Europe, including Russia. He believes that Europe will continue to require large quantities of foreign wheat and that Canada is in a perfect position to supply it.

Sugar Maples In Canada

The natural range of the sugar maple in Canada extends from the Maritime Provinces to the Lake of the Woods in Ontario. In the forest it may reach a height of over 100 feet, but ordinarily does not average more than 75 to 80 feet in height and two to three feet in diameter. It occurs either in pure stands or is found associated with other hardwoods.

Every calling has its compensations. Users are the only men who can put women in their places.

History Of Water Power Development In Canada One Of Remarkable Achievement

More Parking Space

Saskatchewan Providing Recreation Grounds For Tourists and Others

Saskatchewan is providing more parking space, not only for drivers, but for tourists and holiday makers. Manitou Provincial Park, situated along the western shore of Little Manitou Lake, near Watrous, Sask., is now open. This is the first Provincial Park to be created in Saskatchewan under the direction of the Provincial Department of Natural Resources. A similar park is planned at Mudge Lake and plans are also made for others to serve different portions of the province.

The Canadian Government park north of Prince Albert, created a few years ago, has been a factor in furnishing helpful recreation for the population and in attracting tourists. It is expected that the new provincial parks will have a similar effect.

Alaska Is Vigorous

Promises To Fill Important Place As Early Variety

Among the early varieties of oats, the Alaska, which has been receiving some considerable attention in recent years, is giving great evidence of vigor and growth under field conditions during the present season. A field of registered Alaska under observation in Elgin County, Ontario, this spring has showed every evidence of rapidity of growth, stooling and general vigor.

The Alaska oat matures at about the same time as the O.A.C. No. 3, and is somewhat stronger in the straw with a good quality of grain. It is one of the registerable varieties under the Canadian Seed Growers' Association and promises to fill an important place as a vigorous strong strawed early oat.

Have Real Grievance

Farm Women Object To Being Told They Have No Occupation

Census declarations which refer to housewives as persons of "no occupation" came in for condemnation at the annual farm women's weekly conference at Saskatoon. It was declared that the wording of the census declaration was a keen injustice to wives. They work on the farms from daylight to dark and now they are described as persons of "no occupation." It was felt women, in many cases, were responsible for keeping farms in operation during the present depression. By the marketing of cream, butter, poultry, and eggs, branches of farming looked after by women, they had aided materially in holding their lands and homes.

Another need of the times is a typewriter that will make a non-committeral wiggle when you aren't sure about the spelling.

Each country develops its power-producing facilities along the most economically desirable lines and special facilities for power production constitute a definite national advantage. Canada possesses this advantage in a marked degree by reason of the extent and location of her water power resources which are such that, except for a relatively small proportion, her entire settled territory enjoys hydro-electric service. Not only is this true at the present time but there are sufficient undeveloped sites to assure the advantages of this service in the face of expanding demands and advancing settlement.

While complete information regarding the water power resources of the Dominion is not yet available, the Dominion Water Power and Hydro-metric Bureau of the Department of the Interior has collected and analyzed all the stream flow and power data that can be obtained with the purpose of preparing a reliable estimate of the total resources. This estimate places the total power ordinarily available twenty-four hours per day, and every day in the year, at over twenty million horse-power with an additional thirteen million available continuously for six months in the year. These figures are based upon an eighty per cent. efficiency of generation.

As a matter of fact, power is seldom required continuously at full load, and many sites are developed to produce considerably more than their capacity, rated at the continuous or even six months basis, they being able to store the flow at times of light load and draw upon it when the power demand is at its peak. An analysis of existing power installation indicates that the presently known resources would permit of a total turbine installation of approximately forty-four million horse-power.

The history of water power development in Canada is one of remarkable achievement; when the country opened the installation was only 173,000 horse-power, by the end of 1910 it had almost reached one million horse-power, ten years later it was over two and a half million, and at the end of the third decade it was well over six million horse-power.

The provision of this power for the use of the country has, of course, been of incalculable value; in addition, however, the hydro-electric industry has afforded much profitable employment to capital and to labour. It is estimated that a sum approaching \$1,500,000,000 has been invested in the industry. Of this amount, the industry employed \$60,000,000 in 1920 and a further \$300,000,000 will probably be expended in the next few years.

Sleepless Lose Height

Students Claim Loss Of Half Inch After Two

A loss of half an inch in height is claimed to have followed a 100-hours-of-sleeplessness experiment carried out by two University of Georgia students.

Their mental acuteness was decreased by half; concentrated attention was practically impossible; steadiness of nerves and co-ordination of mind and body were impaired. Eyes suffered strain, but sight was not affected. They found it most difficult to remain awake between 11 p.m. and 5 a.m. After two weeks of rest, following the experiment, their height was regained.

"The doctor told me to leave town at once."
"Which doctor?"
"A doctor of law."—Ulk, Berlin.

VESSEL PARTLY DESTROYED BY FIRE

Above is a picture of the \$7,000,000 Furness liner Bermuda, which was partly destroyed by fire and sank in Hamilton Harbor, Bermuda, shortly before it was to start for New York with a big passenger list. The Bermuda is one of the largest motorships in the world. She is 550 feet long, 20,000 tons and has first-class accommodations for 615 passengers.

WORLD HAPPENINGS BRIEFLY TOLD

Canada imported nearly \$46,000,000 worth of American industrial machinery last year.

Shoe manufacturers of the Netherlands will ask for legislation requiring all foreign-made shoes to be marked with the country of origin.

A miniature flying squadron will invade Ottawa August 28 and 29, when the second annual championship contests of the Model Aircraft League of Canada will be held.

Thirteen thousand pigeons were entered for what was called the world's greatest pigeon race held on Saturday, June 13, 1931, from Amiens, France, to Newcastle, England.

Dr. Hugo Eckener announced that he had definitely abandoned the Graf Zeppelin North Pole flight, in view of the delay encountered by the submarine "Nautilus."

President Hoover has decided to let the silver problem alone until he has disposed of his proposal for a year's moratorium on inter-governmental debts.

Heading for the far north in order to make a 2,000-mile boat trip down the Mackenzie River across to the Yukon, a party of ten orange growers from southern California arrived at Edmonton recently.

A gold brick valued at \$19,000 was brought to Vancouver from the Pioneer gold mine in the Bridge River district of British Columbia. The brick represented one week's work at the mine.

Four young Swedish architects have triumphed in Soviet Russia, from where they have jointly carried home a prize in an international competition for a people's theatre at Charkov.

Prospects for a real crop of fall wheat in Ontario are good, it is indicated in weekly crop reports submitted by agricultural representatives to the Ontario Department of Agriculture.

Decline In Construction

Building Figures In Canada Show Considerable Falling Off

A falling off in building construction in Canada was recorded for May. Building permits issued in 61 cities reporting to the Dominion Bureau of Statistics amounted to \$11,968,000 as against \$13,786,000 in April, and \$20,321,000 in May of last year. The total of the first five months of 1937 was \$49,001,000, the lowest figure in the past decade.

Of the larger cities, Montreal reported a higher total of building permits issued both in April, 1937, and in May, 1937, while in Toronto, Winnipeg and Vancouver there was a decrease in both comparisons. St. Boniface and North Vancouver recorded increases in the value of the building authorized as compared with both the preceding month of the same months of last year.

World's Grain Show

Farmers of the Republic of Estonia will be taking part in the competitive classes of the World's Grain Exhibition and Conference in Regina in 1932. It is officially announced that Estonia's participation will cover competitive classes for wheat, rye, oats, grass seed and flax seed.

SUNDAY SCHOOL LESSON

JULY 8

THE GIFT OF THE HOLY SPIRIT

Golden Text: "Ye shall receive power, when the Holy Spirit is come upon you; and ye shall be my witnesses both in Jerusalem, and in all Judaea and Samaria, and unto the uttermost part of the earth."—Acts 1:8.

Lesson: Acts 1:6-14; 2:1-47.

Devotional Reading: Luke 16:7-14.

Explanations and Comments

Christ's Reply To a Question, 1:6, 7. The disciples had had their vision of their Risen Lord, and now it seems that He manifested Himself to them once more before His final departure. The question which had engrossed much of their thoughts during His life with them was still uppermost in their minds, and now that He was alive after His crucifixion, must it not be that He would restore the kingdom of Israel, being king of an independent Jewish state? This they asked Him. "They argued—and doubtless we in their place had argued, too—that nothing would be of such great service to them as definite knowledge of the part they were to play in the opening picture."

"It is not for you to know times or seasons, which the Father hath set within His own authority," was the answer of Christ. "Are there few that shall be saved?" once they had asked Him. He was silent. "Lord, what shall this man do?" Peter had queried about John, after Jesus had revealed to him that he should die a martyr's death, and Jesus had replied, "What is that to thee? Follow thou me." So in answer to their questions of curiosity, He replies, "It is not for you to know." Jesus refused to give the kind of knowledge that would gratify the curiosity of the intellect, but he never was silent regarding matters of conduct.

The World Task, 1:8.—But ye shall receive power, when the Holy Spirit is come upon you. "They were all thinking about 'kingdoms,' but the kingdom of the disciples was a little, vanishing splendor, while the Kingdom of Christ was the whole universe, and purpose of God." His answer implied that He would restore the Kingdom to Israel; not, however, to "Israel after the flesh," as the apostles imagined, but to "the Israel of God," that is, to Christian believers of every nation, by making Christianity the dominant religion throughout the world."—Dummelow.

And ye shall be my witnesses both in Jerusalem, and in all Judaea, and Samaria, and unto the uttermost part of the earth. "The missionary enterprise is not the Church's afterthought; it is Christ's forethought."—Henry Van Dyke.

Waiting and Praying, 12:1-4.—The apostles, together with Mary, the mother of Jesus, and other women and brethren, returned to Jerusalem, and in the Upper Room where they were wont to meet, with one accord continued steadfastly in prayer.

Empowered For the World Task, 2:1-4.—The word Pentecost means "the fiftieth day feast"; it received its name because observed fifty days after the third day of the Passover, Leviticus, 23:15. On the day of Pentecost following Christ's crucifixion, ten days after His departure, the disciples were together in Jerusalem still waiting for the promised coming of the Holy Spirit, for which they had been praying.

Suddenly there came a sound which was not that of wind (but a mighty, rushing wind was the only thing to which Luke could compare it) which filled the house. Compare 1 Kings 19:11-13; John 3:8. And they saw something which was not of fire, but could only be compared to tongues of fire resting upon each one.

And they all, and the apostles only, but the one hundred and twenty followers of Christ, there present, were filled with the Holy Spirit, "filled as a sponge dipped into the sea is filled with the ocean." This is the great fact of Pentecost. The symbols which were like wind and like fire disappeared after a time; the accompanying gift of "speaking with tongues" was also transient, but the Spirit's presence was abiding, and by His aid they were enabled to fulfill their great commission of proclaiming Jesus Christ and the power of His resurrection.

Beds Of Oyster Shells

Alberta Discovery Will Be Developed Commercially
Oyster shell, great beds of them, have been found on the Oldman River near Hillspring, Alberta, and will be developed commercially. The oyster shell, according to tests made at the University of Alberta Laboratory, is almost pure lime and will be marketed by a syndicate as fertilizer, poultry feed and lime. The shells are deposits from prehistoric times, vestiges of marine life when this portion of the west was the bed of a great sea.

Manitoba Peat Beds

A request is being made to the Federal Department of Mines by persons interested in the peat industry for a survey of the peat beds in the northeastern part of Manitoba.

L.O.O.F. GRAND MASTER

M. A. Fletcher, Colgate, Sask., who has been elected Grand Master of the L.O.O.F. of Saskatchewan for the year 1937-38.

Prairie Mining Industry

Over Five Million Dollars Paid Out In Wages In Manitoba and Saskatchewan

In the course of an article on the growth of manufacturing in Saskatchewan, appearing in "The Hub," Frank A. Boldman, Chairman of the Saskatchewan branch of the Canadian Manufacturers' Association, notes that "The mining industries of Northern Manitoba and Saskatchewan, in 1929, spent over \$5,000,000 in wages. Three hundred thousand dollars were spent for groceries, vegetables, meat and other necessities of life; 2½ million dollars for machinery, and over 1¼ million dollars for other supplies; in short, the mining industry spent, in round figures, about \$12,000,000 in 1929."

Imperial Cadet Expedition

Arrangements Completed For Visit Of British Navy To Canada This Year

The committee of the headquarters conference, representing 151 public schools of the British Isles and 27 schools overseas, has approved arrangements for the Imperial cadet expedition to Canada this summer.

According to word received at Ottawa, Major W. L. King, M.C. (Cheltenham), will lead the expedition, composed of 25 cadets with Lt. C. Burton-Brown (Bradfield), as second in command.

The team will sail from Southampton on July 29.

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE

WHAT CAME BEFORE:—After many adventures flying over China, Captain Jimmy is captured by bandits. He escapes in a freight train and meets an old friend, Lieut. Stone on board, seeking a brother who has also been captured by bandits.

After we had cut the freight engine free from the cars, we roared along the tracks at a great rate. Now and then we rushed by little groups of soldiers in the fields. Soon we would be near the enemy's headquarters.

"We're getting close up to the 11 o'clock racket, and clattering our engines. Before long we must abandon ship and set out on foot. Other men have ties put on the track and stop us. And going to be that the least bit difficult to make him believe we didn't steal this old wagon. So I think we'd better swap this thing while we still own it."

"Too late. Here he is!" Stone replied. There, on the track, not half a mile away was piled an immense number of wooden ties. Around about were perhaps a hundred soldiers with eight or ten officers on horseback.

"Jump before we're hit, Jess!" I yelled. "Get a horse and a pack animal for those woods. There will be plenty of vacant places for them to get into action with our brakes and whistles."

"Uh Huh—me savvy," I answered. The officer stood near the obstruction on the track and waited for us to arrive. "Don't you think you ought to see the brakes and come to a stop. But they didn't know our brakes."

Down we bore on them—not at any great speed, but certainly fast. That we were going to hit with a sound thump. Suddenly we slammed on the brakes. The whole valve wide open and skated into their midst like a shrieking, fire-eating dragon.

"Off the horse they both went, and all the blood curdling yells—where!—that other just knew the old dragon had got him at last. Meanwhile I was doing a bit of sailing on my own account.

I jumped for a pack on horseback but I miscalculated my speed and landed him entirely just behind him, however, was a second mounted Chinese. I closed in on him a foot-back tacker and off he went. There was no time to stop and palaver and a r.u.o. about another horse. I had to get a horse and a pack animal. Our old locomotive had pulled into those ties, kicked a few off the track, and then rolled over on her back, wheels in the air, like a fired old horse. (To Be Continued.)

Note—Any of our young readers writing to "Captain Jimmy," 2012 Star Block, Toronto will receive his signed photo free.

Borden's Chocolate Malted Milk

The health-giving, delicious drink for children and grown-ups. — Pound and half pound tins at your grocers

Tax Exemption Requested

Exemption Of Cream Cheques From Two-Cent Tax Is Urged

Exemption of cream cheques from the two-cent tax has been urged upon the government in a memorandum presented by the National Dairy Council.

The memorandum says that throughout Canada farmers daily receive small cheques amounting to from \$2 to \$4 on delivering cream to creameries.

It is contended the price of the product will be adjusted on account of the stamp tax so that the farmer will eventually be the loser.

Vancouver Exhibition

Splendid progress is being made in the erection of new buildings by the Vancouver Exhibition Association which will run to an expenditure of about \$300,000 and will likely be completed during August.

New Woollen Mill

British Firm To Erect Factory Near Toronto

A new Canadian woollen mill, which will turn out yarn exclusively, is now erected in York Township, near Toronto, for Patons and Baldwin, Ltd., large woollen manufacturers, of Halifax, Yorkshire, England. The first units of the new mill will cost in the neighborhood of \$750,000 and are expected to be ready for operation in six months. The industry will give employment to from 400 to 500 workers and contemplated extensions, which will be undertaken at a later date, will probably double the cost of the plant and entail a much larger staff.

A new kind of apparatus reduces the humidity in the air in a room, and is intended to make houses more comfortable in hot weather.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

FRANCE WOULD COMPROMISE ON DEBT PROPOSAL

Paris, France.—France replied to President Hoover's war debt proposal by virtually addressing an appeal to the United States for a compromise in the interests of perfect accord. The suggested compromise, the Associated Press was informed, deals with the issue of unconditional reparations payments from Germany, of which France receives about \$100,000,000 annually.

Instead of postponing these payments in line with the Hoover suggestion that all inter-governmental debts be held in abeyance for a year, France wants them to be made as usual to the Bank for International Settlements. Then, under the French counter plan, they would be made available to Germany and to other needy nations in the form of loans.

This arrangement would keep intact the Young plan, which is looked upon by the French as a citadel of protection. The reply to President Hoover's suggestion was handed to United States ambassador Walter E. Edge by Premier Laval and at the same time a copy was sent to the French ambassador in Washington for presentation to the United States Government.

In government circles it was said the French counter plan would mean that although Germany would continue to make formal payments of unconditional portion of reparations, in point of fact she would be paying out nothing, as the money would be returned to her.

Canadian Aviator Will Compete

Montreal Man Enters 1,000-Mile King's Cup Race

St. Hubert Airport, Montreal.—The first man ever to enter in the 1,000-mile King's cup race for the amateur aerial supremacy of Britain, on July 25, is a Canadian, and Montreal is J. Webster of the Montreal Light Aeroplane Club.

As modest as he is able, Webster would talk very little about himself. But this he did emphasize:

"I have no thought of personal glory. I enter this race, not as Webster, but as Canada," he said.

New Potato Policy

Grading Regulations Are To Apply To New Crop

Ottawa, Ont.—Third reading was given by the House of Commons to a bill designed to bring new potatoes within the scope of the grading regulations.

E. J. Young (Lib., Weyburn), charged that the government was endeavoring to secure exclusion from Canada of United States new potatoes, attempted by order-in-council several weeks ago. Hon. W. R. Motherwell, ex-minister of agriculture, declared the measure was merely an extension of operations of existing grading regulations.

Canada Now Controls Mint

Will In Future Be Under Supervision Of Finance Department

Ottawa, Ont.—Control of the Canadian mint where silver and gold currency is coined passed from London, England, to Ottawa when the House of Commons adopted a government bill for this purpose.

It will be under the supervision of the Department of Finance, explained Premier R. B. Bennett. The mint had remained under the control of Westminster because sovereigns were coined here, but this practice had ceased some time ago.

Northwest Rebellion Pensioners

Ottawa, Ont.—Sixty persons are still drawing pensions as a result of the northwest rebellion of 1885. This was brought out during consideration of estimates of the Department of Pensions and National Health, in the House of Commons. The pensions item, \$30,000, was approved, also an appropriation of \$5,000 for civil servants who suffer as a result of aeroplane flights while on duty.

W. N. U. 1896

Asking Authority To Provide For Obligations

Government Must Meet Loans Coming To Maturity Soon

Ottawa, Ont.—The House of Commons has given third reading to a bill which authorizes the government to borrow to the extent of \$750,000,000. When the measure was under discussion, Rt. Hon. R. B. Bennett informed the House that maturities for next few years would amount to over \$750,000,000.

The former authorization, which had been given by parliament during the session of 1928, and which amounted to \$500,000,000, was now exhausted, and it was considered desirable that the government should be placed in a position to take advantage of any opportunities for obtaining money advantageously, which might occur.

Mr. Bennett stated that the obligations of the Dominion, not provided for in the last conversion loan, up to and including the year 1937, would total approximately \$817,000,000.

Immigration Restrictions

Policy In Future To Be Disassociated From Politics

Ottawa, Ont.—"So far as this government is concerned in connection with immigration, I hope—and I believe that hope will be realized—that if politics in the past has entered into the question, we have learned our lesson," said Hon. W. A. Gordon, Minister of Immigration, in the House of Commons. The mistakes of the past had been made manifest to him in the department, he continued, "and in the future, immigration will be entirely disassociated from politics and will be conducted only in the interests of the country."

"So long as I am in power," the minister continued, "the immigration policy of this country will not be dictated by transportation companies and booking agencies whose interests are governed solely by their pockets."

Air Mail Service Vancouver To Victoria

Post Office Department Rents Space To Coastal Airways

Ottawa, Ont.—A mail-carrying agreement by air linking Vancouver, B.C., and Victoria, B.C., has been entered into between the post office department and the British Columbia Coastal Airways Co., the service to be inaugurated on July 1, according to post office officials here. No contract has been made. The department merely renting space on a poundage basis when conditions warrant.

The company recently purchased the Alaska and Washington Air Co., and is carrying out a triangular schedule of flights—Vancouver-Victoria-Seattle, Washington.

Completing Memorial

Quebec, Que.—The work of completing the memorial at Vimy Ridge to Canada's war dead is now progressing materially, and the names of 16,000 Canadians who were missing from the memorial have now all been engraved, according to Major-General S. C. Mewburn, of Ottawa, chairman of the Canadian Battlefields Memorial Commission. The figure of Canada has been completed.

VISITS MACDONALD

Andrew W. Mellon, Secretary of the United States Treasury, who called on Prime Minister Ramsay MacDonald in London, England, Rt. Hon. Arthur Henderson, British Foreign Secretary, was present during the whole of the conversation between the British and United States statesmen, which Mr. Mellon described as a "Purely Social Call."

Peace River Railway

Construction Of Road From Peace River To Coast Is assured in Edmonton, Alberta.—Definite assurance that construction of a railway outlet from the Peace River district to the Pacific Coast has been decided upon, has been given by Hon. H. H. Stevens, Minister of Trade and Commerce, said G. H. Crane-Williams, director of the Austin Motor Company, and prominent British business man, who called upon Mr. Stevens in Ottawa recently and who is now in Edmonton.

Mr. Crane-Williams says he also was assured that the route for the Peace River outlet has been selected and that it is necessary for the project only to be passed for the work to be undertaken.

New Warships Leave England

Canadian Destroyers Now On Way To Home Stations

Ottawa, Ont.—Canada's two new destroyers, H.M.C.S. Skeena and H.M.C.S. Saguenay, which have been under construction for the past two years in the yards of Thornycroft's at Southampton, England, have left for their home stations at Esquimalt, B.C., and Halifax, N.S., respectively. The warships are scheduled to reach Halifax on July 3.

Commander Victor G. Brodeur commands "Skeena." Travelling in company to Halifax, the warships will separate there, "Skeena" journeying to its Pacific Coast station by way of the Panama Canal, and reaching Esquimalt about the last week in July.

No Archives Branch For West

Ottawa, Ontario.—The government has no intention of establishing a branch of the archives department in Western Canada at present. When the civil government vote for this department was before the House of Commons supply committee recently, Hon. C. H. Cahan, secretary of state, said representations had been made, but no action was contemplated at present.

Government Annuities

Maximum Annuity Reduced From \$5,000 To \$1,200

Ottawa, Ont.—Second reading was given in the House of Commons to a bill reducing the maximum annuity obtainable under the Government Annuities Act from \$5,000 to \$1,200. The measure was then referred to the committee on banking and commerce for further consideration.

On the motion of Premier R. B. Bennett to refer the bill to the banking and commerce committee, Rt. Hon. Mackenzie King, opposition leader, moved an amendment to have the measure referred to the committee on international and industrial relations. Mr. Speaker Black ruled the amendment out of order. Liberals then challenged the motion of the prime minister to send the measure to the banking and commerce committee.

A division followed and the motion of Premier Bennett carried by a majority of 49 votes. The division stood: For, 103; against, 54. U.F.A. Progressive and Labor members supported the government, who voted solidly for the motion. The two Independents (Mr. Neil and Mr. Bourassa) voted with the opposition.

The original government annuities bill was designed for the poor man and a limitation on annuities obtainable had been placed at \$600. Premier Bennett informed the House. Increases in this maximum had taken place until the limit was at present \$5,000. It was never intended that the state should provide annuities, which were free from income tax, paying the expenses from private companies.

It had been found also that certain "traders" invested in large annuities, which were free from seizure for debts, and their creditors could "wristle." Annuities were not social insurance, the time for the consideration of which was later.

Mr. King thought the annuity scheme might be brought into the scheme of social insurance. E. J. Garland (U.F.A., Bow River) believed the bill was "in the interests of the insurance companies" and was reactionary in nature. He was willing to let it go to the committee for consideration.

The annuities fund, remarked Henri Bourassa (Ind., Labelle), would be the only nucleus for social and unemployment insurance scheme and "whether we like it or not, we are being forced into social insurance." He suggested the income tax exemption on government annuities be limited to \$1,200.

Less Wheat In Storage

Fort William, Ont.—Stocks of Canadian wheat in store in all positions are 18,100,167 bushels less than this time a year ago, according to the weekly report issued by E. A. Ursell, statistician to the Board of Grain Commissioners. The drop was aided by a decline of about 5½ million bushels in the storage amount during the past week, the figure now standing (June 24) at 115,917,238 bushels.

Seeking Markets For Butter

Ottawa, Ont.—An effort will be made to improve the position Canadian butter companies occupy on the markets of the United Kingdom. Dr. J. A. Ruddick, dairy commissioner has left for England and will address meetings of the London Provision Exchange and similar exchanges at Bristol, Manchester, Glasgow and other centres.

CIVIL SERVICE COMMISSION IS UNDER FIRE

Ottawa, Ont.—Recent charges of fraud in connection with civil service examinations and criminal prosecutions based thereon, may result in a government investigation of the Civil Service Commission. This was intimated in the House of Commons by Hon. C. H. Cahan, secretary of state, when the civil government vote for the commission, consisting of \$235,360 for salaries and \$80,000 for contingencies, came before the supply committee of the House of Commons.

The Civil Service Commission estimates formed the basis of a lively debate which occupied some hours of the time of the committee. Major C. G. Power, Liberal member for Quebec South, precipitated the discussion when he moved to reduce the appropriation to \$100. Later, when Mr. Cahan had represented that the commission was a statutory body and that Mr. Power's amendment involved breaking what amendments were contract with that body, the member for Quebec South withdrew his first amendment.

He substituted another calling for a reduction in the amount by \$100. The second amendment was defeated by a vote of 69 to 17; and the item carried.

Merit formed the whole basis for the operations of the Civil Service Commission, Mr. Cahan said. It had been represented to the government that inquiries should be made growing out of prosecutions, past and pending, in connection with alleged acts which would destroy this system. The government, however, had taken no action in view of the fact that prosecutions were pending in both the courts of Ontario and Quebec and that the whole matter was sub judice.

But the government intended, when the criminal prosecutions were over, to examine the evidence with the greatest care, and if it warranted, there must be further inquiry to see how far the Civil Service Commission was vitiated as a body of a non-responsible body administering the affairs of the country. He believed that it was a negation of the principle of responsible government to have such a condition. He had no interest, he said, in moving the amendment, excepting that he did not think the Civil Service Commission was a good thing. He was willing to let the defeated candidate in his riding win the appointments for that constituency.

He was strongly supported in his position by Armand Lavergne, Deputy Speaker of the House of Commons, who stated that Canada's judiciary was regarded as a body of a high quality. Judicial appointments were made by the government in power, but that did not result in the selection of inferior men as judges. A minister in charge of a government department was not to be required to accept the dictation of the Civil Service Commission.

The Civil Service Commission system had its supporters. J. S. Woodsword, Labor member for Winnipeg North Centre, expressed the opinion that it would be fatal to revert to a system where each member felt called upon to reward individuals in his constituency for services rendered. The result would be to degrade the position of a member of parliament.

Ottawa, Ont.—The bill to restrict the preference of returned soldiers in the civil service to ex-service men of the Canadian and Imperial forces now domiciled in Canada, was "talked out" in the House of Commons. It was the only bill discussed during the hour allotted to private members' legislation.

Ottawa, Ont.—Some modifications in the articles exempted from application of the sales tax will be made when the House of Commons reaches that stage in committee of ways and means, Rt. Hon. R. B. Bennett, the prime minister, informed Rt. Hon. W. L. Mackenzie King.

The much-heralded flight of the Lindberghs to Japan and China, via the Pacific Ocean, is expected to commence very shortly. This picture (left) shows Col. Lindbergh and Ann Morrow Lindbergh arriving at the landing field to inspect the plane in which they will attempt the hazardous trip. The photo on the right shows the Lockheed-Sirius monoplane being lifted out by Colonel Lindbergh over New York.

Duffield vs. Walther League.

The husky team of ball-tossers from Duffield got the surprise of the season when they met defeat at the hands of Walther League team in Stony, last week. When they looked at the schoolboys on the opposing team they must have smiled, as it seemed to be an easy win. But baseball don't always turn out that way, and this game proved no exception.

Eddie Mayer and Eddie Enders was the battery for the home team; and these, backed by other youths, as Louie Wudel, Oscar Oppertshauer, Eddie Dannhauser, etc., "brought home the bacon," defeating the visitors 13 runs to 10.

These teams meet again on Sun, July 12, at Duffield, and the betting is 2 to 1 Duffield wins.

J. F. CLARKE, Stony Plain.

Stony Plain and District

The regular Wednesday half holiday in the Town of Stony Plain has commenced, and will continue thru June, July and August, when all places of business close at one p.m.

Mr George J. Bryan made a motor trip to Calgary this week, and expects to return to Stony this (Thursday) afternoon.

Mr C. H. Pegram, business manager of United Canadian Shows, was in town Tuesday, arranging to bring his show to Stony Plain on Saturday, July 11th.

Heatherdown's basketball girls engaged the girls' team from Blueberry on Saturday last on the Blueberry court. Blueberry won by 10 points to 5.

Stony Senior ball players had planned taking part in the tournament at Wildwood yesterday, but were informed the tournament had been postponed.

At the 39th annual convention of the International Walther League, held last week at Pocono Pines, Pennsylvania, Mr Val J. Kulak, Stony Plain, was elected Vice Pres. for the North. Mr Kulak attended last year's convention of this organization.

At the local Court on Monday Mike Schmigelky was charged with carrying concealed weapons, and pleaded guilty. Magistrate Williams fined him \$100, or the alternative of three months at Fort Saskatchewan.

M. M. Mecklenburg the Optician and eye specialist, will be in Stony Plain on Friday, July 24th. See him, and see good.

Remember Sports Day at Edmonton Beach, Wed, next, July 8th.

W. L. Summer Camp.

The Alberta and British Columbia are having their summer camp at Edmonton Beach July 5-12. During that week one day will be set aside for the district convention.

The mornings will be devoted to educational and in spiritual lectures and topics. Among the speakers are Rev Mettler of Red Deer; Rev Boettcher of Edmonton; Rev Herzer, Winnipeg; Prof Herrellus and Boeppler of Edmonton.

The afternoons and evenings are a time of pleasure for all the camp, as the Rev Hopka of Prince George is a leader in that line.

Rev Boettcher will be dean and Mary L. Enders as camp manager.

Edmonton Beach.

The Tuesday mid-night trolie was cancelled, on account of the rain storm.

An announcement was made over the radio on Tuesday night that the big celebration and children's sports, "billed at the Beach for Dominion day had been postponed until Wed. next, July 8th. The affair was postponed as a result of the inclement weather conditions.

Commencing Monday next, the 6th, there will be a big time at the Beach, when delegates to the Walther League convention will be holding their meeting here.

Spruce Grove News.

Mr Joe Brox is planning to take a motor trip, with some friends, up to Wembley about the 15th inst.

The Councilors of Spruce Grove M.D. meet in Municipal hall on Monday next, 6th of July.

Mr Barnhart motored a party of friends up to the hall game at Stony on Sunday. While the game was in progress, someone caromed a foul ball off his windshield. The latter was a total loss, with no insurance.

The local stockmen are getting their exhibits ready for the Edmonton Ex., which opens July 13.

So many local ball fans were interested in the big game up at Stony Sunday afternoon, that the Grove's game with Winterburn had to be postponed.

The weed inspectors for this M. D. this season are—T. Pinchbeck, for three divisions; and Mr Medcalf for three divisions.

Mr B. J. Whitney, who has been in charge of the Leduc district as weed supervisor for the past few years, has been transferred to the district immediately north and west of Edmonton for this season; and is expected to give the Grove district the once over in the near future.

The staff at the local restaurant was wearing its lavender pants yesterday, in honor of the holiday.

The members of the St. Joseph Parish are planning to hold a social at the Grove in the course of a few weeks, have engaged the shop recently vacated by Mr Morrow for that purpose.

HERE AND THERE.

Feeding tobacco to sheep is the latest device to check internal parasites. The tobacco is given with salt in the proportion of ten pounds of salt to one of crushed tobacco leaf.

Latest available estimates place Canada's forest resources at 224,304 million cubic feet of standing timber, capable of yielding 424,637 million feet board measure of sawn lumber and 1,121,995 thousand cords of pulpwood, ties, poles and other smaller materials.

Western Canadians are showing resolution coupled with a high degree of industry, was the comment made by Grant Hall, vice-president, Canadian Pacific Railway, on his return from a recent tour of the company's western lines.

Trail riding in the Canadian Rockies has made a strong appeal to Lord Duncannon, son of His Excellency the Governor-General, who with the Hon. Arthur Ponsonby and Major Dollan have been staying at the Banff Springs Hotel.

Intensive campaigns against grasshoppers, wireworms, wheat stem sawfly, cutworm, potato beetle, cabbage butterfly, root maggots are being conducted throughout the west this summer and fall with a special organization in the field.

"Buyers' Week," which has been a great success in the past, will be held for the fourth time in Montreal commencing August 10 next. At the last one in February upwards of 1,000 buyers came to Montreal and purchased in round figures \$950,000 worth of Canadian-made goods.

A man catching a fish is not new unless the fish is an outsize, but a fish catching a man raises a big type head. This happened at Lake Minnewanka, near Banff, recently when an angler was pulled off the pier into the lake by the sudden strike of a monster trout. Constable James of Calgary put off in a boat and landed both fish and fisherman.

Six days, nine hours and eleven minutes was the time of the record run of the "Empress of Japan," 26,000-ton flagship of the Canadian Pacific fleet, on her last trip from Yokohama to Honolulu while a double record was made when the same ship completed the voyage from Honolulu to Victoria in four days, nine hours and 10 minutes.

For the second time in the past three years, Canadian Pacific Railway police are all-Canada revolver champions. The railway's Ontario team defeated Royal Canadian Mounted Police, of Lethbridge, in the finals for the trophy recently. The railway police scored 1410 out of a possible 1500 against the Mounties 1352 thus becoming Dominion Open Revolver Police Champions.

Hon. Gordon S. Harrington, Premier of Nova Scotia, and two hundred of the province's leading citizens, gathered at Yarmouth June 16 for the opening of the Lakeview Inn, Canadian Pacific hotel. This hospitality is the third of a chain across Nova Scotia opened by the railway in the past few years, testifying to the faith in the tourist possibilities of the province held by the Canadian Pacific. CHAPTER XXI.—Continued.

Almost reluctantly Nick turned to go below, moving with stealth, not wishing to disturb the sleeping occupants of the "Sea Bird." But before he had taken a dozen steps he stopped in surprise. Angela was coming toward him wrapped in a long white cloak, her feet incased in satin slippers that made no sound. She came swiftly forward, and laying a hand upon his arm, said softly, "I couldn't sleep. Take me where no one can hear us, Nick. I want to talk."

For a moment Nick wished intensely for that he had turned in earlier. He didn't want confidences from anyone, and Angela's lowered voice and stealthy manner subtly repelled him. He answered, and hated himself for speaking softly: "This is no time to talk, Angela. It's after midnight, and everyone's asleep."

"Nick, I—I need you."

"Her voice was pleading; her eyes more so; her hand on his arm pressed gently. Nick's pity stirred, even while his heart hardened.

"Won't it keep till tomorrow—what you want to say?"

She dropped her hand from his arm and turned away, a sob shaking her shoulders. That was too much for Nick. Scorning his caution of a moment since, he said, stretching out a hand: "What's the trouble, Angela? Of course I'll tell you talk if it will help."

"They turned, and going to the stern, sat down together."

"What's troubling you?" Nick asked again.

She raised her head. The moon, creeping from behind the clouds, illumined her sharply, and he saw traces of tears upon her face. What a brute he had been to withhold his sympathy!

"If—I if I can help you, Angela," he began, when she interrupted him.

"You can. I—of course you saw, Nick, that the Colonel's story did me up? But—but not for the reason that you thought. I—I never heard of Painter's Neck before, nor of those awful people; but—but it brought back something else. I shan't go into it, but it's given me a nightmare. We're nearing port, and I don't know what to do. I want you to tell me."

"Tell you what?"

"Why, you've seen how things are, of course. You know Jim Halliday and I can't get along. What you're to tell me is—shall I stick to him? I promised—but—but what do you believe about the permanency of one's marriage vows?"

The clouds had lifted higher, leaving a path of silver across the sea that led Nick straight to a mountain cabin in old New England. He saw a girl's sweet face upturned to his. He saw himself, a boy then, a boy a little shy of the big moment—a little uncertain about the future, yet saying with all the ardor and abandon of ardent youth: "God's a good enough

witness for me, Gay; and I promise you now that I'll love you . . . and be true to you . . ."

He turned to Angela. She was very beautiful in the moonlight, but he scarcely saw her. "As for one's marriage vows," he answered gently, "I can only say that to me, they were a promise—and that I keep my word."

Her hand drummed nervously on her knee.

"That," she hesitated, "if you knew—absolutely—if you had proof that your wife had been untrue to you—"

Nick might, of course, have felt furiously insulted at this insinuation. What he actually did feel was mirth. The idea was so utterly absurd that he laughed aloud, forgetting for once his sleeping shipmates. Then, realising that Angela might have been hiding her own tragedy behind the question, he sobered instantly.

"Forgive me, Angela; but what you said sounded so outrageous. You see, you don't know Gay. Still, if you want a serious answer to a preposterous question, I'll say that when I find my wife has—well—passed to care for me, I'll leave her free."

She drew a quick breath; stretched out a hand; withdrew it hastily, and arose. Nick, too, arose, relieved that the midnight interview was over. He didn't like this sort of thing, and felt impatient when to Angela's fingers at the rail, her cloak slipping from her shoulders as if by accident.

Nick moved a step away. Why had she put that question to him, anyway? Was he an oracle to settle her domestic troubles? He stirred uneasily, but the chairs not to take the hint, and stood gazing down into the water that lapped restlessly against the boat. She had not troubled to replace the cloak, which seemed, in that dim light, no lighter than the shoulders that rose above it.

"I wish," she said, and her voice trembled, "I wish I had the courage to slip down into those depths and end it all."

Instantly he was at her side—all sympathy.

"Angela! don't say a thing like that. What has come over you? You were gay as a lark this afternoon, or so you say. Come! what you're saying is nonsense. Things will look brighter in the morning. Surely, my friend, there are worse fates than yours. Your husband isn't a brute. You may not love him, but he's not cruel to you."

"You mean, I suppose, that he doesn't beat me? Oh, Nick, there are other cruelties—"

She lifted those innocent eyes—never so innocent before. Nick wondered savagely how anyone could wound her. She looked as helpless as one of his own children. He forgot everything else in his desire to comfort her as he put a hand gently on her shoulder.

"There!" he said, as he would have soothed a hurt or weeping child, "there, Angela, you mustn't feel like this. But if it helps to know that I understand, and—and care for your happiness—"

"Oh, it does! It does!"

She turned, and, somehow, shipped. Nick's arm was round her, catching her as she fell, and for a moment she lay a yielding weight, against his breast. The clouds had gathered again now. The night was dark, and the boat stirred uneasily, like some huge monster tugging at its chain.

Nick likewise stirred. "Angela," he began, but she rated a head, pressing it against his lips as if to silence him; then, turning, she slipped an arm about his neck and kissed his cheek.

It was a caress so soft, so sweet, so fugitive, that, alone on the deck for a moment later, Nick wondered if it had been a dream. In sheer surprise he sat down, dimly, and taking out his handkerchief, wiped at the spot, as if by doing so he could erase the memory. Then, dazedly, he went below.

How had it happened? he asked himself as he tossed restlessly in his narrow berth. It was only to save her from falling that he had caught her in his arms. She couldn't have misunderstood. Perhaps it was merely a kiss of gratitude for his sympathy. Yes (with a sigh of relief), that was it;—a sisterly kiss. It would be idiotic to suppose she meant it any other way; and yet . . . By George! what was the use of trying to kid himself like this? There was nothing satisfactory about it!

Nick arose, and going to the porthole, looked out, but the stars and moon were no longer visible. As he lay down again, longing for sleep, he

PAINS

No matter how severe,
you can always have
immediate relief

Aspirin always stops pain quickly. It does it without any ill effects. Harmless to the heart; harmless to anybody. But it always brings relief. Why suffer?

ASPIRIN
TRADE MARK REG.
Made in Canada

had a vague, uneasy feeling that everything was wrong. What was there in a kiss to excite a fellow so?

What would Gay say when he told her? Then—could he tell her? Would it be fair to Angela? How soft her lips had felt against his cheek . . . and there was a fragrance about her . . . some sort of perfume . . . or was it merely the scent of shrubs from the island? . . . Darned if he knew!

Of course he should tell Gay. He hadn't had a secret from her in five years . . . Still, she didn't like Angela, and—well—darned if he'd like her herself if she kept on this way! Did she think him an innocent of no experience—or a scoundrel?

Mighty funny—that story about Painter's Neck! . . . And Halliday was an uncommon name, as the Colonel said.

He wondered if a storm were on the way. There was something confoundingly oppressive in the air . . . If a storm came Angela might be seasick and stay below; but, come to think of it, she was a good sailor!

Why in thunder did she have to apply everything? . . . Perhaps Gay was right.

Perhaps . . . This was Nick's last conscious thought. He slept heavily. It was the Colonel who woke him—an agitated Colonel in striped pajamas, pounding at Nick with one hand even while he

struggled frantically with a pair of flannel trousers and a life preserver. The boat was careening at such an angle that for a dazed moment Nick thought he was standing on his head. Then came a crash, and, instantly

became aware that a hurricane was upon them.

(To Be Continued.)

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numbing the chases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Japan Has Strong Army

Figures on Nation's Military Strength Submitted To League

The Japanese war office has published figures on the nation's military strength which will be submitted to the League of Nations.

The army numbered 231,600 men, including officers, in addition to 2,210 men in the gendarmerie and about 20,000 police in Korea, Formosa and Manchuria.

The aviation branch totalled 623 aeroplanes and eight trimotors and organization of two new air regiments was contemplated.

Aching CORNS STOP HURTING

INSTANT RELIEF!

Just a drop of two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "Putnam's" is so easy, so sure, so painless—

—that you can say it is the best. Don't suffer any longer, use Putnam's Corn Extractor, the one sure relief for sore corns. Sold at every drug store, 35c.

European Travel Much Cheaper

Hotel and Railway Rates Are Lowered On the Continent

European travel is going to be much cheaper this summer according to an announcement from the local offices of the Canadian Steamship Co., Limited. Hotel rates will be lower also. With the world proceeding at a reduced pace and money growing in value daily, the men at the heads of European railroads and hotels realize that the only way of winning the Canadian dollar is by holding out more than a dollar's worth in order to attract it. Consequently, there have been reduced rates for tours in Great Britain and deep cuts in railway and hotel rates throughout the continent. It will be much cheaper to travel this season, the reductions ranging from fifteen to forty per cent. In France it will be possible to ride around daily for two weeks for the sum of \$50.45.

The Norwegian Railways have announced a reduction in fares varying from fifteen to thirty per cent. This condition will last all summer.

The French railways are issuing a coupon for \$1.00 which enables the holder to purchase a railroad pass good for two weeks at \$68.70 for first class and \$50.45 for second-class accommodations. This pass will permit the holder to use the French railways at any time within the two weeks specified there being no restriction as to its use. For families there are greater reductions, the cuts reaching from twenty to forty per cent.

On group business Germany is granting twenty-five per cent. reduction for fifteen to fifty passengers and an additional reduction for larger groups.

Many of the hotels will maintain their low winter schedules during the summer.

How To Lose Fat and Get That Youthful Feeling

Orgs in Great Britain when a man is feeling "as fit as a fiddle" and looking the "picture of health" they say of the man.

"HE'S GOT THAT KRUSCHEN FEELING."

That means he takes his little dose of Kruschen Salts every morning.

It's the same in the U.S.A.—in Germany—in Holland—in Australia—in South Africa, for Kruschen Salts are now sold the world over.

Kruschen Salts is not one salt only—it is the combination of six salts necessary to healthy life.

Take half a teaspoon in a glass of hot water before breakfast every morning, modify your diet and exercise regularly.

But don't miss a morning, for Kruschen not only puts and keeps the stomach, liver, kidneys and bowels in a splendid healthy condition, but purifies your blood-stream, and sends new life and activity to every part of your body.

Little Helps For This Week

"I will guide thee with Mine eye."—Psalms xxxiii. 8.

Of his high attributes beyond the meekness of a lamb.

I thank my God for that Omnipotent eye, beneath whose blaze no secret thing can hide.

In His infinitude of being, lost, I bless my God I am not wrecked and tossed.

Upon a sea of doubt, with power to try And hide, somewhat in His immensity, One single sin out of His reckoning crossed.

For even there—self-conscious of its frailty—Might spring the terror—"If He knew the whole, And tracked the skulking guilt out of its goal, He could not pardon!" But, or great, or small,

He knows the inmost foldings of my soul, And knowing utterly, forgives me all!—Margaret J. Preston.

"His eye is upon our ways, upon our souls; and we may look into that eye. We know, or may know, on what it rests with pleasure, on what it rests with pity, on what it rests with condemnation; and we can, if we will, always do the things that please Him, and can make His good pleasure our constant motive, our rule of duty, our reason of doing and not doing. We can shape ourselves under the eye of God, as He would have us."

—Andrew P. Peabody.

THE RHYMING OPTIMIST

By Aline Michells

PRESSED SEA-WEED

Between the yellowed pages of a book

A bit of sea-weed met my hand to-day,

And it had gained in that closed place a look

All alien to its home of wave and spray.

What once was rosy-red now gray and dim,

What once was lithe with life now stiff and stark.

What once might drift from ocean shut closely here in an unending dark!

Old time and change, like pages, sometimes close

Upon the inflexibility of a heart,

Turning drab-hued what had been glowing rose

While slowly vital essences depart.

Yet even in pressed sea-weed one divines

The lift of foam and ocean's flowing lines!

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Too Many Complexes

Broad-Minded International Ideal Needed To Save Civilization

There are too many complexes in the civilization of today, according to Dr. George M. Weir, of the University of British Columbia, Vancouver.

"We are developing 'too' much second-hand thinking, crowd thinking," he declared, addressing a Toronto service club. "Our civilization appeals to sickly love romances, and if you don't believe it, go to some of the talkies and movies in your neighborhood."

A broad international ideal would be the best thing to save civilization, he said.

Tommy—Mothers are awful. His Father—Why, Tommy?

Tommy—If my ear is dirty, mother washes 'em, and if my ears is clean she whips me for goin' swimmin'!

A library of more than 3,000 manuscripts has been unearthed by Dr. Sven Hedin's expedition at ruins in the Gobi Desert.

Brought Back My Strength

"Lydia E. Pinkham's Vegetable Compound helped me to regain my strength. I was all run-down and very nervous and weak. Now I am able to work without that dragging, dazed feeling. I first took the Vegetable Compound through the advice of a friend. I cannot praise too highly and I hope my testimony will induce others to take it."

Moseley-Gitzel.

In Edmonton, on Monday, June 29, at Grace Lutheran church, Miss Elsie Gitzel (daughter of Mr and Mrs Dan Gitzel) was united in marriage to Mr J Moseley. The ceremony was performed by the pastor Rev H J Boettcher.

Mr Moseley has been the teacher at the Garden Valley school for the past four years. The newly-weds left on Monday's train to spend a honeymoon at Quebec City and other points in Eastern Canada.

Treit-Rosnau.

The wedding took place in Edmonton, on Sunday, July 28th, of Miss Hildegarde Rosnau of Bruderheim to the Rev Henry Treit, formerly of Stony Plain district. The ceremony took place at St Peter's Lutheran church, and was performed by the Rev A J Mueller, the pastor.

After the ceremony the happy couple left on a honeymoon trip to Banff, returning later to Leipsic, Sask., where the Rev, gentleman is pastor of the Lutheran church.

Mr. George E. Clarke Accidentally Shot.

His many friends in town and district were painfully surprised to hear, on Friday evening, of the sudden death of Mr George Eldon Clarke, as the result of a shooting accident while examining the paying teller's revolver in the bank at Strathcona, where he was the manager.

Mr Clarke had been manager of Stony Plain branch of the Bank of Commerce, coming here from the Ponoka

GEORGE E. CLARKE.

branch in 1921, continuing here until 1925; leaving here to take charge of the branch where he had the accident.

While here he was very popular with everybody, and took an active part in all Community affairs.

He had been on the Stony Plain Club for two terms; was a charter member of the local curling club, helping to organize the club in October, 1923; he was a charter member and officer of the local Meridian Lodge, A.F. & A.M.

Mr Clarke was also a strong supporter of all kind of sport. When any of the young athletes had engagements out of town, George was always there with his car, to give the youngsters transportation.

Mr Clarke was a native of Ottawa, the Capital of Canada, where his father until recently had been in the employ of the department of the Minister of Justice. He entered the employ of the Bank of Commerce in 1906, and for the past nineteen years had been managing branches of the bank, coming here from Ponoka.

Mr Clarke had been granted three months' leave of absence, and had arranged to leave for Winnipeg on the 29th; when he and Mrs Clarke intended making a tour thru the East.

He leaves no mourn his loss his wife, two sons, and one daughter.

The funeral took place on Tuesday afternoon. Meridian Lodge sent in a wreath, and the members of this lodge and other friends attended the obsequies.

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerin, buckthorn bark, salina, etc., as mixed in Adierka, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headache and constipation. Don't take medicine which cleans only PART of bowels, but let Adierka give you a REAL cleansing and see how good you feel! It will surprise you! J. F. CLARKE, Drugist.

New Lakeside Inn is Opened

Beautifully set in one of the most picturesque sections of Nova Scotia, combining marine and landscape vistas which bid fair to bring it fast into line of popularity with its sisters at Digby and Kentville, the new Lakeside Inn, at Yarmouth, N.S., was formally opened on June 16, as the newest link in the Canadian Pacific Railway's great chain of hosteleries from Atlantic to Pacific. Readily accessible from Saint John, through Digby, via the

luxurious steamer "Princess Helene", from Halifax, over the Dominion Atlantic Railway; and direct from New York, Boston and Portland by Eastern Steamship Lines, the town of Yarmouth and its new hotel are destined to play an important role in tourist traffic to Nova Scotia, with its famed Annapolis Valley and historic Land of Evangeline. Sport and recreations are plentiful and varied. Canoeing, tennis, fishing, swimming and innumerable at-

tractive excursions are only a few of the offerings. There is good golf available near Yarmouth and the hotel and its cottages form a comfortable base of operations. Taste and comfort have been skillfully combined in its spacious public rooms, broad verandahs and airy bedrooms. Its cuisine and service are conducted on the established standards, known to guests of the company throughout Canada.

Church Services.

Services in St. Philip's Church next Sunday, 11.30 a.m.
United Church service every Sunday Evg. at 7.30.

Baseball News.

It rarely occurs that Stony has a surplus of visiting ball teams, but this happened one evening last week, when the team from Wabamun and a team from Hudson Bay Co. got their invitations mixed and landed in town here in a few minutes of each. The local team decided to let the visitors play for 5 innings, when Stony was to play the victor. But, at the time stated the teams were tied 3 all, and continued the game. The Hudson Bay came out on top by a good margin. Stony's Seniors had the pleasure of witnessing some good base ball.

Sunday's Ball Games.

Stony Senior's hoodoo-jinx seems still to be working, as witness another disabled player in the game on Sunday with Wetaskiwin, on the local diamond. While nearing the home plate, in the 6th inning, Eddie Clark had the misfortune to collide with the catcher while the latter was endeavoring to get a pitched ball to put the runner out. As a result of the collision, Eddie's left leg was broken below the knee.

He received medical attention here, after which he was removed to a City hospital.

Up to the time of the accident, the home team was holding the visitors down fairly good. Following this, Stony players seemed to lose heart, the final score being 11-3. Stony battery: Herman Loeblich & O Lory. It is estimated about 500 witnessed the game. E H Pidgeon, umpire; D Bell, referee.

Jac Enders is on crutches, from the effects of having his foot spiked in the game ten days ago. Walt Rosnan is confined to his home at Bruderheim as a result of a broken ankle received in the game here three weeks ago.

Stony Seniors have been getting the "breaks" alright!

It is the evening the Intermediates Walter League and Stony played, with the former winning by 8 runs to 5. Batteries: Walter League, Eddie Enders & E Mayer; Stony, Art Davis and L Miller.
